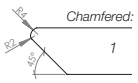
L146 x H4 x D2 cm - for strengthening of desk tops from L150 cm	Black metal	**48**	30

Desk tops

FUMAC®

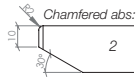
Standard desk top edging:
Chamfered edging (1)

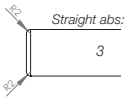
Note! Decor laminate always with straight abs edging (3) included in price.



Special desk top edging:
101 Euro surcharge per desk top with abs edging (2+3).
See abs standard colours on last page.

Note! ABS edging makes the desk tops extra strong against damages from eg. chairs armrests and belt buckles.





Standard lacquered edging:
Lacquered chamfered edging in the same colour as the desk top - veneered desk tops and laminate beech and birch however with a clear lacquer on the edging. You can free of charge choose a black, white, light grey or anthracite edging lacquer independent of the colour of the desk top (however, not on veneered desk tops).

Edging with a special lacquer:
405 Euro surcharge per production independent of number of desk tops. Please specify RAL colour code.

Thickness of top: 22 mm mdf
22 mm chipboard when decor laminate - always with a straight abs edging included in the price

Colour/surface of desk tops:

Veneer:	Beech, Birch, Oak
Decor laminate:	Beech, Birch, White, Light grey, Anthracite, Black
Laminate:	Beech, Birch, White, Light grey, Anthracite, Black
Linoleum:	Sand grey, Light grey, Dark grey, Anthracite, Black
Nanolaminate:	White, Black

Remember to order a support rail no. 48 (30 Euro) if the desk top is longer than 150 cm.

ACCESSORIES for sit/stand desks

FUMAC®

Cable ports

				Metal
Cable port in metal (countersunk)	Ø7,6/7,2 cm size of hole	1 pcs White, Alu, Black or Chrome	**113-1**	36
		2 pcs White, Alu, Black or Chrome	**113-2**	46
				Plastic
Cable port in plastic	Ø6 cm size of hole	1 pcs White, Light grey or Black	**112-1**	26
Note! Plastic cable ports are required for decor laminate desk tops.		2 pcs. White, Light grey or Black	**112-2**	43

The cable port prices include factory fitting 10 cm from the rear and 20 cm from each side of the desk top.
If you order one centralized cable port, the factory fitting is also 10 cm from the rear of the desk top.

Cable flap with slit

				Other
Flap: 25 x 12 cm	for desks between 140-200 cm	Same surface like the desk top	**KG125**	133
Depth of slit: 1 cm				
The slit/flap are always placed 35 cm from each side of the desk top.		*Note! Not possible in desks tops in decor laminate and veneer-laminated patterns and Call center desks*		
The length of the slit will therefore vary according to the length of the desk.				
We recommend cable tray.		*Choose left or right mounted*		

Cable tray

				Metal
D12 x H10 cm (H14 incl. brackets)				
Length 90 cm	for desks in L120 cm	White, Alu or Black	**61090**	50
Length 130 cm	for desks in L140 cm and L160 cm	White, Alu or Black	**61130**	55
Length 170 cm	for desks in L180 cm and L200 cm	White, Alu or Black	**61170**	61

Note! Please order 61090 for Call center desks.
The cable tray must be moved if you want to mount a front panel.
If you order desks in special sizes, the cable tray must in some cases be moved, too.

Single desk drawers

				Metal with plastic insert
Pen and accessory tray - with possibility of retrofitting a lock L33,7 x D31,6 x H4,5 cm (L32 x D24,2 x H3,5 cm internal dimensions)		White, Alu or Black	**0092**	83
Desk drawer, small - with possibility of retrofitting a lock L43,4 x D26,0 x H4,5 cm (L35,3 x D24,4 x H2,5 cm internal dimensions)		White, Alu or Black	**0093**	124
Desk drawer, large - with possibility of retrofitting a lock L87,9 x D25,9 x H4,5 cm (L79,8 x D24,4 x H4 cm internal dimensions where Plastic pen tray L33,2 x D21,8 x H2 cm and free compartment L44,3 x D24,8 x H4 cm)		White, Alu or Black	**0094**	148
Lock for desk drawers model 0092, 0093 and 0094 - can be retrofitted.			**0096**	29

Pen tray

				Plastic
Rotating pen tray L35 x D20,5 cm		Black plastic	**124**	26

CPU holder

				Metal
CPU holder	H20-46 cm x W6-19 cm Max weight 20 kg	White, Alu or Black	**0097**	51

Cable ducts

				Metal
Cable duct with brush	L24 x W10 cm	White, Alu, Black or Brushed steel	**1224**	94
	L45 x W10 cm	White, Alu, Black or Brushed steel	**1245**	131

The cable duct prices include factory fitting in the center 12 cm from the rear of the desk top.

				Other
Linoleum cleaner	1 liter concentrated Monel linoleum cleaner		**Monel**	36

Maxi Tower / Pull-Out Cabinet JIVE

Hide your belongings in a practical, space-saving and very elegant pull-out cabinet designed by the Danish architects Busk+Hertzog for FUMAC. Besides the storage options and the extra space right next to you where you need it the most, your JIVE Maxi Towers also works as a shield for the surroundings just as the surroundings are spared for your cables and cluster.

If you choose a high model with more space and more privacy, you furthermore get an informal place for effective stand-up meetings. Or why not share your Maxi Tower with your colleague with a Maxi Tower model that is accessible from both sides?

Choose models with or without shelves with integrated pen trays or models with accessories that fit exactly your needs.

STORAGE UNITS JIVE – DEPTH 42 CM
with and without middle dividers

With our 42 cm deep JIVE storage you get a wide, deep and flexible assortment that covers all your requirements - and more. A timeless and clean design, attractive surfaces, inspiring colours and the possibility of countless combinations make it possible for you to design your own, unique furniture for your own workplace. If your needs or taste change over time, you can easily re-design your furnishing and furniture by e.g. exchanging the base or plinth for mounting castors or legs. Or vice versa.

You can also order a lot of beautiful and functional accessories - in a crisscross manner. JIVE is a well thought out assortment - down to every detail.

Designed by Busk+Hertzog.

Colour / surface of cabinet and shelves and middle dividers (unicoloured or mix):

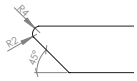
Tops for storage units - DEPTH 35 cm

Top edging:
Chamfered edging



Thickness of top:
22 mm mdf

Standard lacquered edging:
Lacquered chamfered edging in the same colour as the top - veneered desk tops and laminate beech and birch however with a clear lacquer on the edging.

You can free of charge choose a black, white, light grey or anthracite edging lacquer independent of the colour of the top (however, not on veneered desk tops).

Edging with a special lacquer:
405 Euro surcharge per production independent of number of tops. Please specify RAL colour code.

Colour/surface of tops:
Veneer: Beech, Birch, Oak
Laminate: Beech, Birch, White, Light grey, Anthracite, Black
Linoleum: Sand grey, Light grey, Dark grey, Anthracite, Black
Nanolaminate: White, Black

Overhang: 22 mm

Please contact us if you are looking for other sizes of tops.

A-model: Overhang on all sides (for units that are free standing)

B-model: No overhang towards the back (for units that are placed against the wall)

If the storage units are placed back to back (2, 4, 6 or 8 units), there will be an overhang both in the front and at the back.

Tops for grouping storage units - depth 35 cm

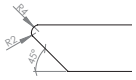
Lounge tables

Table top edging:
Chamfered edging



Standard lacquered edging:
Lacquered chamfered edging in the same colour as the table top – laminate beech and birch however with a clear lacquer on the edging.
You can free of charge choose a black, white, light grey or anthracite lacquer independent of the colour of the table top.

Edging with a special lacquer:
405 Euro surcharge per production independent of number of table tops. Please specify RAL colour code.

Thickness of top: 19 mm mdf

Colour/surface of table tops:
Laminate: Beech, Birch, White, Light grey, Anthracite, Black

LEGS

Colour of legs: Black lacquered, untreated or oiled solid oak legs
Height of legs: 45 or 50 cm incl. table top (the 2 different heights make it possible to arrange the tables beneath each other)
Shape of legs: Conical Ø2,2-4 cm

Lounge tables – round and plectrum shaped

				Laminate Beech, Birch, White, Light grey, Anthracite, Black
	Ø45 cm lounge table	Height 45 cm	**50145**	100
	Ø55 cm lounge table	Height 45 cm	**50155**	124
	Ø65 cm lounge table	Height 50 cm	**50165**	148
	Plectrum shaped lounge table	74 x 60 cm Height 45 cm	**50140**	155
	Plectrum shaped lounge table	104 x 67 cm Height 50 cm	**50141**	180

Note! Remember to choose black lacquered, untreated or oiled solid oak legs.

RECEPTION AND COUNTERS

FOCUS universal reception counters

Design: Busk+Hertzog

- for use in shops, exhibitions, foyers, receptions and internal working counters

Panels: 32 mm panels

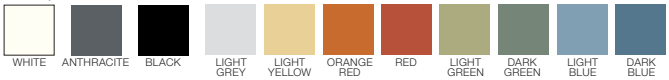
Colour/surface:

Top: Laminate:

Sides: Laminate:

Front: Laminate:

Lacquer:



For any other colour, the surcharge is 354 Euro per colour.
Please specify RAL or NCS code upon ordering.

Kick board: Alu foil

Features: Possibility of many colour combinations – choose top, side or front panels
Possibility of precise NCS/RAL colours on front panels (e.g. logo or company colour)
Possibility of furnishing with desks and JIVE cabinets/cupboards
Possibility of adaption in height (lower, not higher) and width against a surcharge.

INFORMATION ON MATERIAL

All core material in mdf or chipboard fulfills European standard E1.

Information on veneer

We only use veneer and wood from controlled forestry. Where veneer is applied to products a selected veneer is used: Beech (EU), birch (EU) and oak (EU). A match of veneer on door sets, extra leaves for tables, etc. is made just as the direction of the veneer is matched in order to get a uniform product. A further selection is carried out in our production using the most uniform grain structured veneer on visible surfaces and the less uniform grained veneer inside cupboards and other less visible surfaces in order to minimize waste of this natural product.
Being a natural product there are not two pieces of veneers that are identical. Therefore, slight differences in shading and colour may occur between two products making them individually unique. This is not considered to be a defect on the product.
For daily cleaning use a slightly damp cloth.

Information on lacquered surfaces

”Always protect your furniture as if it was your car” one could say. FUMAC recommends the use of protective padding on shelves or surfaces where there is a high risk of friction and scratching from for example binders with metal corners etc. All FUMAC units with lacquered surfaces do have a protective decor laminate underneath the lacquered surface in order – if any scratches should occur by misuse – to minimize the visibility of the scratches. The colours white, anthracite and black are UV lacquered and have a gloss level of approx. 25. Other NCS lacquerings have a higher gloss level which will be visible when the furniture is placed against each other.

Information on linoleum

Linoleum is used on FUMAC desks and table tops with mdf core material. Linoleum is a natural product with a matt, anti-static surface. The colours do not fade over time but please note that colour differences may occur since linoleum is a natural product.
The desk and table tops must be treated with a cleaning agent especially made for cleaning linoleum (e.g. Monel) before use. When maintained daily, tops can be cleaned and dried with warm water and detergent. Clean very dirty linoleum surfaces with linoleum cleaner and linoleum maintenance treatment agents. Please be aware that alkali detergents, like soda, brown soap and ammonium chloride, can attack the linoleum surface, and must therefore not be used.
Only detergents with a pH value of between 5 and 9 after dilution are recommended. After-treatment of linoleum can be done with a mild natural soap diluted with water. This treatment leaves a thin surface film on the tops and make them dirt repellent. Use coasters in order to prevent stains.

Information on laminate

Laminate is used on FUMAC desk and tables tops with mdf core material. Daily cleaning is carried out by using a damp cloth and a mild cleaning agent. Do not use soapbased detergents or ”spray-and-shine” products. Spot cleaning and occasional complete cleaning of your laminate surface can be done using the manufacturer’s recommended products. A few drops of isopropylalcohol on a clean cloth can make ink stains disappear. Isopropylalcohol can only be used on laminate and not on lacquered surfaces like e.g. edges. After cleaning, the surface must be washed thoroughly with clean water and polished with a dry, soft cloth. Never use abrasive cleaners, steel wool or scouring powder. Laminate is durable but not indestructible. Never use your laminate top as a cutting board. Scratches can not be repaired.

Information on nano laminate

Nano laminate is used on FUMAC desk and table tops with mdf core material. The nano laminate surface is extremely matt and extra rub and microscratch resistant. The surface is very soft and it is hard to see fingerprints. Furthermore, the surface has a low light reflectivity and the decor layer has been nano-treated the whole way through.
Daily cleaning is carried out by using a damp cloth and a mild cleaning agent. Never use abrasive cleaners. A few drops of isopropylalcohol on a clean cloth can make ink stains disappear. Isopropylalcohol can only be used on laminate and not on lacquered surfaces like e.g. edges. After cleaning, the surfaces must be washed thoroughly with clean water and polished with a dry, soft cloth. Window cleaners or a few drops of vinegar are perfect for removing grease stains. Never use your nanolaminate top as a cutting board. Microscratches can be ‘healed’.
