Table designs: Faust Linoleum, Germany

THE **SURFACE** FOR **VISIONARY DESIGNS**

Elevate your designs with a surface material that blends sophistication, sustainability, and functionality. Furniture Linoleum is a high-quality, climate positive, natural material that emphasizes elegance and sustainability. With its matte finish and soft texture, Furniture Linoleum transforms any surface -furniture, kitchen cabinetry, doors and much more - into a refined and durable design element.

Beyond its appearance, Furniture Linoleum offers a durable surface, making it ideal for enriching interiors. Made from natural materials, it is a sustainable choice. Available in a range of modern colours and adaptable to various applications, Furniture Linoleum empowers you to bring your vision to life with enduring style and sophistication.

CRAFTED FROM NATURE, MADE TO LAST: THE NATURAL COMPOSITION OF FURNITURE LINOLEUM

Furniture Linoleum not only stands out for its beauty but also for its purity. Made from natural ingredients like linseed oil, wood flour, pine rosin, and limestone, it offers a sustainable alternative to synthetic materials. Each component is carefully selected to create a surface that is both high-performing and environmentally responsible.

The natural composition of Furniture Linoleum means it ages gracefully, with an organic patina that only enhances over time, rather than showing wear and degradation.

The combination of natural materials gives Furniture Linoleum its unique tactile warmth and matte finish, which cannot be replicated by its synthetic counterparts. It is soft to the touch, naturally anti-static, and resistant to fingerprints—ideal for spaces where both aesthetics and usability come together.

Choosing Furniture Linoleum means investing in quality, sustainability, and an authentic connection to natural materials, providing an elevated, conscious alternative for your designs.

UNPIGMENTED LINOLEUM:

PURE, NATURAL ELEGANCE

Unpigmented linoleum brings out linoleum's raw, authentic beauty, showcasing only the natural tones and textures of its unique ingredients.

This minimalist option exudes warmth and organic appeal, adding a touch of understated sophistication. Perfect for creating a refined, natural aesthetic look.

Unpigmented linoleum allows the material's purity to shine through in its most honest form.

Unpigmented linoleum is available on request.

The versatility of Furniture Linoleum allows it to be applied to desks, tables, cabinets, shelving, and wall panels, adding a sophisticated, soft-touch finish to any piece. Designed for flexibility, it adapts to curves and corners, providing designers with creative freedom to craft beautiful, functional furniture that stands the test of time.

Furniture Linoleum offers a durable, elegant surface solution for kitchens, bringing a refined, matte finish that is resistant to fingerprints and easy to clean. Perfect for cabinets, drawers and shelfs. It provides a warm, natural feel while standing up to daily wear and tear. Its sustainable composition makes it an ideal choice for environmentally conscious kitchen designs, delivering a blend of functionality, style and naturalness.

The pillars of our ambition

At Forbo it is action that is important, not just promises. We want to be a trusted partner who provides full transparency, for example when it comes to circular solutions. It is about the things we do, not just about the things we promise. We do this based on 3 pillars:

TRANSPARENCY, CIRCULARITY AND RENEWABILITY

To meet the challenges of today's and tomorrow's requirements we develop and perform on 5 themes

PRODUCT DEVELOPMENT & DESIGN

- Timeless colour scheme that fits everywhere for everyone, the furniture never get outdated.
- Strengthening to the biocycle of furniture where its applied.

SOURCING AND RAW MATERIALS

- Made out of 94% natural raw materials, plastic free, Red list free certified.
- Healthy and natural low emissions surface material, HPD available.

PRODUCTION AND DISTRIBUTION

- Climate positive cradle to gate without offsetting, realised by 79% renewable raw materials.
- 100% of electricity is from green source.

LONG LASTING & EASY TO MAINTAIN

- Regenerative, strong waterborne surface finish.
- Easy-care: Furniture Linoleum needs no chemicals to maintain a beautiful surface.

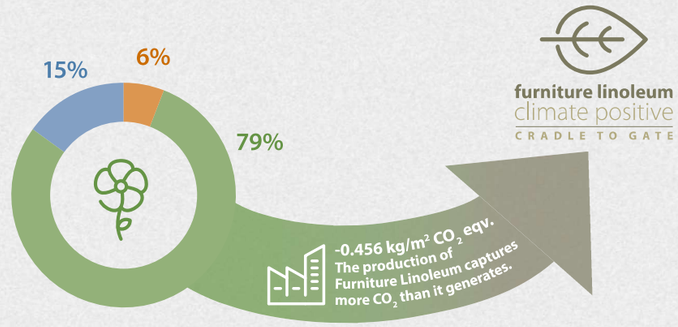
RECYCLING AND END-OF-LIFE

- Contains 29% recycled content.
- Furniture Linoleum enhances the longevity of your furniture, ensuring circularity and endless possibilities for refurbishing.

Climate positive from cradle to gate without offsetting*

94% Natural ingredients:
- **79%** Renewable: linseed oil, PEFC wood flour from recycled source, pine rosin, cellulose
- **15%** Mineral limestone, mineral pigment

6% Pigments, protective finish, feltpaper binder



Furniture linoleum is made with 94% natural ingredients, and over 79% of its raw materials are renewable. The renewable raw materials are almost endlessly available, unlike limited fossil resources used for alternative, mostly plastic, solutions. Furniture Linoleum is climate positive from cradle to gate, without the need for offsetting, and contributes to reducing global warming.
